Final Project - Overview and Evaluation Criteria

Estimated Time Needed: 15 minutes

Project Overview

ABC Consultant is a reputed placement company based in Seattle. Their primary focus is to help people with less than 5 years of experience to find a suitable placement in their industry. You have been hired by ABC Consultants as a web developer and they have assigned you the task of creating the porfolio of one of their clients as a single static webpage to share with the prospective employers. You will be putting to use your newly acquired skills in HTML, CSS, and JavaScript to do this. You have been asked to create a single page portfolio for your client, having the following sections:

- About Me
- Skills
- Projects
- Recommendations

Evaluation Criteria – 20 Points

The peer review assignment has criteria for **9 tasks**, based on which you will be marked on an overall grading of **20 Points**. Please follow the list below to know about the marking criteria in detail.

Criteria:

Task 1:

The styled name appears on the **top-left** of the page – **3 points**

Task 2:

The navigation bar has 4 options (About, Skills, Projects, and Recommendations). On mouse hover, the font and text styling change and the cursor arrow pointer changes to a finger pointer. – **3 points**

Task 3:

The "About Me" section has a unique profile image, name, and text reflecting a summary of learners profile. – **3 points**

Task 4:

The skills added by the learner appear, with logo and text in the specified format. – **3 points**

Task 5:

The 3 projects are different from the default ones given in the sample code and are in the specified format. – **2 points**

Task 6:

The 3 recommendations are different from the default ones given in the sample code and are in the specified format. - **2 points**

Task 7:

New recommendations get added to the existing list of recommendations. – **1 point**

Task 8:

The `Home` icon appears as specified. – **1 point**

Task 9:

Upon submitting a recommendation, a pop-up message with confirmation dialogue appears. – **2 points**
